# Pulp sourcing policy

The Lenzing Group is an ecologically responsible company and operates in a sustainable manner.

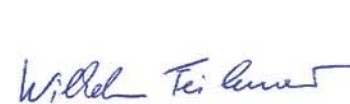

Business unit Pulp is part of Lenzings fiber value creation chain. It is responsible for providing pulp of specified quality and quantity to all of the Groups fiber producing sites, as well as for marketing and selling its by-products.

To the utmost extent possible, we source wood and wood pulp from certified forests and pulp suppliers

## We avoid using wood which has been harvested:

- < illegally
- < in violation of traditional and civil rights
- < from forests of high conservation value
- < from forests converted to plantations or to non-forest use
- < from forests or plantations growing genetically modified trees
- < in violation of any of the ILO Core Conventions as defined in the ILO Declaration on Fundamental Principles and Rights at Work.

Lenzing, November 2012
